Enrollment Keys
When you completed the Moodle Course Request form, you selected an enrollment key for your course.

To view the enrollment key once the course has been created, go to your course in Moodle:

- In the settings box on the left hand side, select Users > Enrollment methods > Self enrollment (Student)

- After you click Self enrollment (Student), you will see this screen. The third box down is labeled “enrollment key”; check the box marked “unmask.” The key will now be visible to you and you can copy it and share it with the students.
