Creative Collisions

What a joy it was to gather with over 100 people to celebrate the grand re-opening of our library on Thursday, January 26, 2023. The GTU library is the physical manifestation of the coming together of the consortium and its member schools—all of whom contributed their collections to bring it into being and continue to contribute to support its ongoing development. It is a place where we can gather for collaboration, conversation, and group work, and a place where we can study in silence. And it is staffed by deeply knowledgeable librarians who are dedicated to serving students and faculty at the GTU.

On the night of re-opening, there was a slideshow on rotation in the library that included a quote from former GTU President Claude Welch from May 1981: “The GTU is nothing less than an ingenious device for arranging creative collisions.” Two images jumped to my mind immediately when I read the quote.

The first image was of that TV ad in the early 1980s showing two people walking along, oblivious to their surroundings, each of them thoroughly absorbed with that they were eating—one peanut butter, the other chocolate. When – bam! – suddenly they collide with each other. “Hey! You got chocolate on my peanut butter!” says one. “You got peanut butter on my chocolate!” complains the other. Then, tasting the unexpected concoction, they each declare: “Delicious!”

The other image that the quote conjured for me was the Large Hadron Collider (LHC), the world’s largest and most powerful particle accelerator (17 miles in circumference). The LHC was designed to help explain some of the [Big Unanswered Questions](#) in particle physics like what is the origin of mass? And what are dark matter and dark energy?

The LHC is called a collider because, as an article on Space.com puts it in plain speak: “[the LHC accelerates two particle beams in opposite directions, and all the action takes place when the beams collide.](#)” In other words, what I think they’re saying is: “Delicious!”

“The GTU is nothing less than an ingenious device for arranging creative collisions.” And those collisions happen most fortuitously in the GTU library. This is where the action takes place. People colliding with people, people colliding with ideas, and images, and archives, and artwork. Ideas colliding with other ideas. It is in this space where we ask the big questions. (And loads of little questions, too!) What happy (if perhaps sometimes at first unsettling) and delicious collisions these are.

The Sixth Annual Borsch-Rast Lecture

With Dr. Kathryn Barush,
 Thomas E. Bertelsen Jr.
 Associate Professor of Art
 History and Religion

Friday, March 3 | 5:00 pm (Pacific)

The Graduate Theological Union is pleased to host Dr. Kathryn Barush, Thomas E. Bertelsen Jr. Associate Professor of Art History and Religion, as the sixth annual Borsch-Rast Lecture for 2021 publication, ***Imaging Pilgrimage: Art as Embodied Experience*** (Bloomsbury Visual Arts).

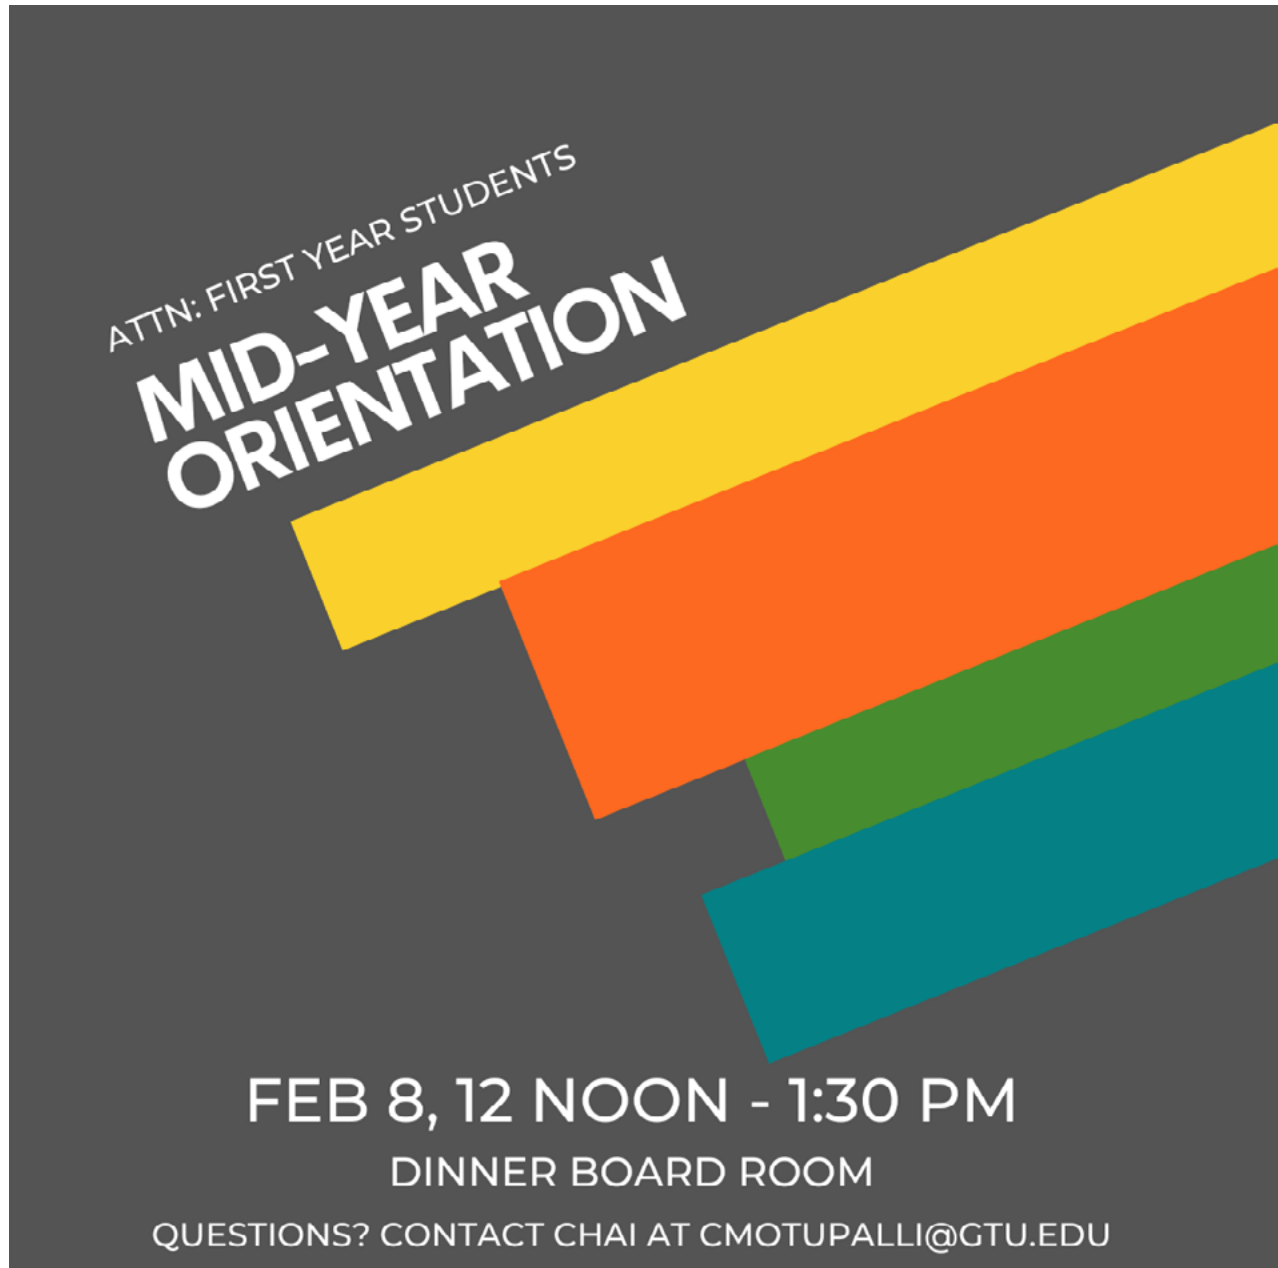

In her acclaimed book, Dr. Barush explores contemporary artworks created after pilgrimage experiences, which are intended to act as a catalyst for the embodied experience of others. Each chapter focuses on a contemporary artwork that links one landscape to another—from the Spanish Camino to a backyard in the Pacific Northwest, from Lourdes to South Africa, from Jerusalem to England, and from Ecuador to California, ultimately comprising the first full-length study to engage contemporary art that has emerged out of the embodied experience of pilgrimage.

The event will be hybrid with an in-person audience located in the GTU Dinner Board Room, Flora Lamson Hewlett Library. Contact Sabrina Kennedy by **February 21 5:00pm** at skennedy@gtu.edu if you would like to attend in person.

Borsch-Rast Book Prize and Lectureship

Nominations open

The Borsch-Rast Book Prize and Lectureship of the Graduate Theological Union has as its purpose the encouragement of the writing and publication of theological scholarship by GTU graduates and current faculty. The endowment for the Borsch-Rast Book Prize and Lectureship comes from the sale of Trinity Press International, a venture dedicated to the publication of scholarly and often interdisciplinary theological studies. The prize and lectureship honor the joint example and collaboration of Frederick Houk Borsch (1935-2017) and Harold W. Rast (1933-2004).

Hal Rast, after years as a senior editor at Fortress Press, was the founding director and editor of Trinity Press International, where he championed significant theological and religious studies. Fred Borsch was chair of Trinity Press International's Board of Governors and then its Advisory Board. Borsch was also (1972-1981) the Dean and President of the Church Divinity School of the Pacific and among the founders of the Graduate Theological Union Library. This prestigious prize of \$10,000 will be awarded on an annual basis.

Nominations must be submitted to the GTU Dean's Office using the [online nominations form](#). Nominations are open again, with a due date of May 19, 2023. This is for books published in 2022.

Library News

Hello GTU Community,

I want to take this opportunity to welcome all back into the library. As many know, the library has undergone considerable changes this past year. I want to highlight some of these and invite you to visit if you haven't seen the new spaces yet. The new entrance, on Scenic, is the original library entrance, first used 35 years ago. It's around the corner from the Ridge Road entrance and will take you directly into the first-floor library.

- You'll see a new library-themed mural created by local artist Nigel Sussman when you enter.
- The service desks have been moved to the first floor. The circulation desk is available every hour the building is open for checking out and returning materials. The reference desk, staffed by the reference librarians, is available in hybrid modalities. Reference librarians are both in-person and online on weekdays from 9 am-4 pm to answer your questions.
- We've moved the beloved oak study tables to an area where they get more natural light. These refinished tables seat eight and are fantastic for groups.
- Individual study carrels are still a silent solo area, and each has an outlet and light.
- Any GTU consortial student can reserve a locker for the semester; they are handy for keeping checked-out materials inside.
- Group study rooms are available again. Book these from the library website.
- We have a new Rare Book and Archives Reading Room available by request. Please let us know if you want to read something from these collections.
- Digitizing of the microfilm and many duplicate items continues. These will be linked in our library catalog, making for easy full-text searching.
- All the books have been rearranged; that's approximately 400,000 items in the building, picked up and put in a new location.
- The computers have moved, and a scanner, printer, and copier are available near the restrooms.
- The reference and exegetical collections have been combined into radial shelving around the atrium. A new table, which seats 12, will be installed in the center of the shelves.
- A new display featuring photos from 60 years of GTU history is also near the entrance, and the exhibition inside the library features art and publications by GTU students and alums.

In addition to these physical changes, we are committed to continuing hybrid services to our community outside of Berkeley. These include scanning services for people at a distance, Reciprocal Borrowing programs across the United States and Canada, and our essential Ask-a-Librarian chat services.

As always, if you have any questions or concerns, please reach out to a librarian. We are happy to help.

Reserving Library Study Rooms

The library has two reservable seminar rooms, Seminar A and B. GTU and member school students, faculty, staff, and visiting scholars can reserve group study rooms in two-hour blocks, 30 days in advance. Seminar A and B will be available to reserve beginning in February, depending on renovation work in the library.

Seminar B is a slightly larger room which can fit between 8-10 people comfortably. Seminar A can fit at most 5 people comfortably. Both have smart screen TVs that allow you to hold video conferences. The table has built-in chargers for laptops and other devices.

For more information on these rooms and other spaces and equipment, please visit the [library website](#).

Lockers Available

If you're spending the day close to the GTU, borrowing a locker for a semester is a great way to keep your stuff safe and organized. Lockers are for current GTU and member school students and visiting scholars only; they are quite popular. Lockers will be ready to borrow by January 30.

You can use the locker for the semester. If you're using them to store library books, please remember to have library staff check them out on your account first. Do not store food or perishable items. Please note that the library reserves the right to search lockers at anytime.

Lockers are located behind the stairs. Students may request by height if they wish, otherwise staff will assign the next available locker.

You must clean out your locker by May 19, so that library staff can clean the lockers and replace the locking mechanism's batteries. Please make sure to remove your items promptly or else items will be discarded after 30 days.

An Educational Approach to Fostering Emotional Integration in Traumatized Children

Guest Speaker: Claudia Kohner, Ph.D. – Licensed Psychologist

Tuesday, February 28 | 12:30 pm - 1:30 pm (Pacific) Free Webinar / Open to all!

Trauma in children can manifest in out-of-control behaviors that look to adults like "misbehaving" or "tantrums." This webinar will emphasize children have feelings too big to handle alone, and adults can be helpful. Three modalities: comforting, playing, and assigning words to feelings, signal a shift in the adult's thinking, enhance the adult's relations with children overwhelmed by their feelings, and promote the emotional integration of experience.

Caring for the Elderly in the Jewish Community

Guest Speaker: Rabbi Haim Dov Beliak

Tuesday, March 21 | 12:30 pm - 1:30 pm (Pacific) Free Webinar / Open to all!

Rabbi Beliak will focus on the context of hospice and hospital needs but will reference the internal diversity of the Jewish cultural and religious contexts. Chaplains answer the “frontline” spiritual and psycho-social needs of diverse minority populations. In the case of Judaism, it should be evident that there is not just one way to be Jewish religiously or claim that identity. Often, pausing to appreciate the internal complexity within groups builds trust and connection during stressful interactions. Discerning the needs of a family is a delicate challenge.

People may have an identity within Judaism, but at a specific moment, they are uncertain or even conflicted about how to respond because of fear or ambivalence, or ,, a host of other factors. A chaplain's guidance can help sort out how to proceed. With a deft expression of humility and directness, a Chaplain may often find a way to point the way.

Building on the strong foundation to which so many have contributed, our vision as we look ahead involves several key initiatives: expanding educational access with GTUx; optimizing the GTU’s campus and infrastructure to best serve student, faculty, and staff needs; and investing in student scholarships to attract and support tomorrow’s leaders today. The purpose of this workshop is to explore the ancient contours and later global legacies of distributive justice (and injustice) in the Bible from a range of disciplinary perspectives. This will involve examining New Testament passages in their Jewish and Roman contexts, as well as critical study of the imperialist uses of such texts and the derivative legacies of transmission, interpretation and re-appropriation. To accomplish this purpose, the workshop will bring together both scholars of New Testament and scholars in other fields (literature, political science, Islam, the natural sciences, medieval history), to show how a broad study of the New Testament/Early Christianity bears on contemporary issues related to unequal distribution of resources and opportunities, such as poverty, climate change, identity, and violence.

Learning From Our Past, Healing Our Future: Dismantling Colonial Dominance in Western Christianity

Monday, February 13 | 4:30 pm - 6:00 pm (Pacific) Free on Zoom

The history and theology of Christianity is unfortunately intertwined with the colonizer impulse, to the detriment of many indigenous cultures. Even today, Christian ideas, perspectives, language, practices, and systems bear the marks of this impulse, having been formed with the colonizer mindset as the default. Join us as Rev. Dr. Randy Woodley, farmer, author, activist, scholar, distinguished speaker/teacher and wisdom keeper, using the lens of indigenous spirituality, will speak on how Christianity can be disentangled from the precepts of colonialism and returned to its core message.
